Soft Skills

Problem Solving Communication Teamwork
Leadership

I am a creative minded person who loves solving problems in an efficient manner. Being interested in Technology, Design & Engineering, my vision is to deploy groundbreaking and game-changing solutions using technology and my skillset which helps both in the social and industrial scenarios.

Education

B.Tech Computer Science, Cochin University of Science and Technology

Expected to Graduate in 2022

Favourite fields of study: UI/UX Design, Web/Native Development, Data Structures & Algorithms, Artificial Intelligence and Mathematics.

- ♦ Class Representative of Association of Computer Science Engineering Students.
- ♦ Active Contributor in Tech & Media committee of "DHISHNA" the annual Techfest of CUSAT

Work Experience

Design & Development Intern NOV 2019 - Present

HAPIENS Digital (P) Ltd.

Responsibilities: UI/UX Design and Fullstack Development.

- ♦ Automated messages for company run Telegram group "FORUS - The Youth Collective" using Telegram Bot and NodeJS as Backend. This was combined with a front-end Dashboard where the Community Manager can Add/Update/Delete Scheduled Messages.
- ♦ Made UI and Prototypes for various in-house Projects.

UI/UX Research Intern JUN 2019

CodeSteak LLP, Kochi

Responsibilities: UI Design and prototyping.

- ♦ Designed a UI and a prototype for Costa Coffee website. The Idea was to implement 'One UI' Experience on Web. The design was intended to improve and have next-level user experience.
- ♦ Implemented animations and modern Experiences.
- ♦ Implemented using Adobe XD, Photoshop and Illustrator.
- ♦ Interacted with other team members and planned a feasible design.

Part Time Graphic Designer 2016-17

SAT Focus, Salih Abu Talib Est. , Jeddah Saudi Arabia

Responsibilities: Graphic Designing & Photography

- ♦ Helped to Setup a Live Streaming which helped viewers from all over the world to tune into the Conference held in Jeddah, Saudi Arabia.
- ♦ Served as Photographer in Client's functions.

Projects

Daily Messages Telegram Bot

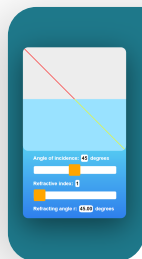

·A Telegram Bot that posts scheduled messages from MongoDB which can be set from front-end
·Used NodeJS as backend

<https://github.com/naseemshah/daily-message-telegram-bot>

WeatherX

·WeatherApp made using React JS by utilising OpenWeatherMap API and Unsplash API for photos related to current weather

<https://github.com/naseemshah/WeatherX>

RefractionX

• Interactive physics simulation made using Javascript and HTML+CSS.

<https://naseemshah.github.io/RefractionX/>

WebGL Experiment

Made a Retro-futuristic 3d Scene using Three.js with mouse parallax, glitch passes and other custom render passes.

<https://naseemshah.dev/projects/dhishna>

Graphs Visualiser

• An interactive WebApp for drawing graphs (Graph Theory) and shows it's adjacency matrix.

UNDER CONSTRUCTION

Python Reminder Alarm

A simple Application to create, view and update reminders and alarms when time is set.

<https://github.com/naseemshah/python-reminder-alarm>

Doctor patient record system

• This project is an academic assignment for DBMS course.

UNDER CONSTRUCTION

Volunteering & Other Social

- GDG Cochin Organizer
- Lead of volunteers in DevFest 19
- Community Contributor
- Volunteered for DevFest 18 & I/O Extended 19

- TinkerHub Foundation Media Team .
- Organizing Team of TinkerHub CUSAT
- Volunteered and organised Various events
- Community Contributor
